📂 PROJECTS

Hook Store Ready for Mobile and Web E-shop 🔗
Technologies: React, Hash Router, Axios, Redux-Toolkit, React Hooks, Tailwind, CSS
Developed a comprehensive web application featuring user authentication (signup, login, password management), protected routes, and product browsing (including brands, categories, and subcategories). Implemented advanced search, sorting, pagination, and filtering. Added functionalities such as a star rating system, discount coupons, cart and favorite list management, cash on delivery, and Stripe credit card payments. Created routes for admin and user roles, and supported image upload and processing.

Portfolio Website 🔗
Technologies: Next.js (App Router & Server Actions), TypeScript, Tailwind CSS, Framer Motion
Developed a responsive portfolio website to showcase projects, utilizing React and Next.js for optimal performance, TypeScript for type safety, and Tailwind CSS for modern design. Enhanced user experience with Framer Motion animations and integrated email functionality with React Email and Resend. Deployed on Vercel for reliable hosting.

Responsive E-commerce Platform 🔗
Technologies : Html, CSS, JavaScript
Home Page for Show All Product, Product Details Page for Add to Cart, Cart Page for Show All Product Cart and Apply Discount Coupon Code, Blog Page and Contact Page

Responsive Dashboard 🔗
Tools: Html, bootstrap
